

“Hosted LMS, off-the-shelf training courses and superior support services to ensure the success of your eLearning programs!”

Reduce the Cost and Centralize Training Administration with the Evolve Learning Manager LMS!

Evolve e-Learning offers the most scalable, flexible and affordable training solution in the industry with the Evolve Learning Manager LMS. Getting started is easy, fast and affordable since we host the LMS for you. While you don't have to install and manage servers and load and setup software, you still have full administrative control of the Evolve LMS and your employee training and development programs.

COMPANY PROFILE

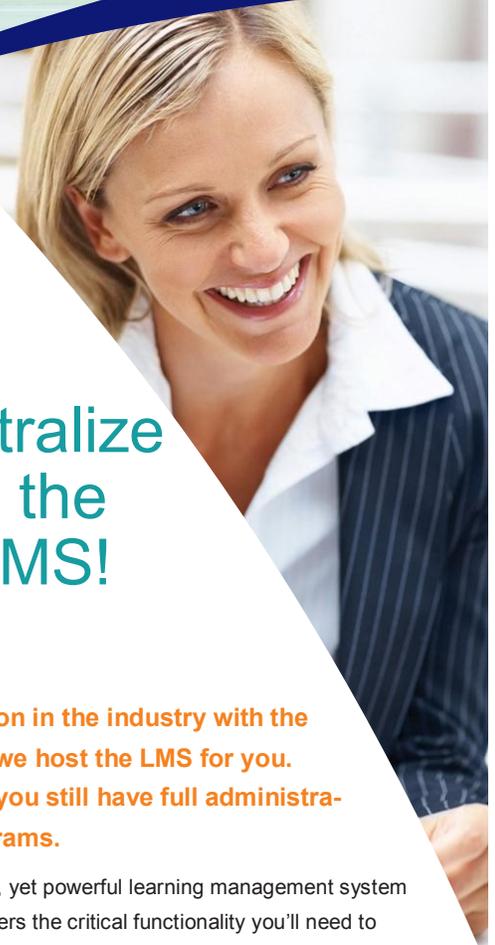

Evolve e-Learning Solutions has provided online training systems and courses to organizations across the US for over 14 years. Our goal is to provide the greatest value to our customers for the products and services we deliver with personal support services.

We deploy our solutions in the Cloud as a Software as a Service (SaaS) model so customers do not have to make investments in additional hardware or software technologies to receive the benefits of online training. Our customers don't make technology purchases involving IT but select Evolve for the value we bring to their business, government or educational operations.

The Evolve LMS is a simple, yet powerful learning management system that is easy to use and delivers the critical functionality you'll need to track and manage online, instructor-led and external training.

SETUP AND SUPPORT SERVICES

Our setup services will ensure your complete satisfaction by working with you to configure the LMS to meet your training needs and goals. They will load any content you license from Evolve and setup the initial course assignments, bulk upload your learners, help configure email messaging and more. Your administrators will have complete administrative control and will receive the training they need to independently manage the Evolve LMS in a dedicated or shared server environment.

Evolving Solutions for Learning!

Training reports can be setup to automatically email to designated recipients on a defined frequency.

THE EVOLVE LMS IS THE RIGHT CHOICE FOR:

- Compliance training
- Employee training
- Channel partner training
- Sales training
- Content developers to sell and deliver their own training
- Extended enterprises

ACHIEVE FAST TIME-TO-VALUE

The Evolve Learning Manager LMS can be deployed in just a few short days - not weeks or months like many other systems. The hosted LMS environment allows you to be up and running with a branded environment without investing in servers or additional software. Learners can be quickly imported into the LMS and registered for training using the Bulk Import module.

SIMPLE CONFIGURATION

The Evolve LMS design ensures flexible customization and provides the ability to add, remove and control user access to major menu tabs from the application.

Administrators can add new modules to display within a menu tab, change the order in which menu tabs are displayed and even the layout of individual pages.

While there are standard security roles such as student, manager, and administrator that provide view and edit access to specific functionality, you can easily create new security roles and edit existing roles to tailor the system to fit your needs.

FLEXIBLE ORGANIZATIONAL STRUCTURE

The organizational structure is fluid in the LMS, not predefined. Multiple levels are available, each with their own hierarchy of information; so users with certain roles in a parent organization may see the activity of users in a sub-

CORE LMS FUNCTIONALITY AND EXCEPTIONAL SUPPORT TO BENEFIT YOUR TRAINING PROGRAMS.

EASILY INTEGRATE WITH YOUR HRIS

Evolve Learning Manager LMS integrates easily with HRIS systems such as ADP and UltiPro and other 3rd party applications to further reduce administrator time and effort.

Training events such as student course enrollment, automatic email notifications, and more can all be automatically initiated in the LMS based on the new student data elements imported into the system.

MANAGE ELEARNING AND ILT TRAINING

The Evolve Learning Manager LMS provides the functionality to deliver and manage both online and classroom training; allowing both types of courses to be scheduled and tracked for all students.

Scheduling ILT training courses is managed with through the ILT Events module and gives Instructors multiple tools for scheduling and updating attendance or grading classroom events.

LMS CUSTOMIZATION

The system is based on the Microsoft.NET framework with modular controls and design which enables Evolve to add and modify with easy-to-use system tools. Our development team can easily create new modules to fit seamlessly into the existing product framework.

Evolving Solutions for Learning!

Learners automatically receive a certificate of completion when they complete and pass the end-of-course assessments.

OFF-THE-SHELF AUTHORIZING TOOLS

Sometimes there are not off-the-shelf courses for your specific training needs, such as for your own manufacturing processes and products. The Evolve LMS gives you the flexibility to use any SCORM compliant authoring tool such as Storyline®, iSpring®, Captivate® to create your own content and deliver them to your staff or partners.

CORE LMS FUNCTIONALITY AND EXCEPTIONAL SUPPORT TO BENEFIT YOUR TRAINING PROGRAMS.

TRAINING DELIVERY

Multiple automated course assignment methods that use rules-based criteria from the LMS standard and user-defined fields to pinpoint training to groups of learners. These include:

- ▶ Individual course assignments
- ▶ Course group assignments
- ▶ Curricula assignments

Learners can be automatically re-registered into training assignments based on specific criteria you define and also setup for delayed enrollment into courses in course groups or curricula. Each assignment can have it's own automatic email reminder message setup.

ECOMMERCE

The eCommerce module delivers the features and functionality for organizations that need a premium online solution to sell training content online. The online store is integrated with the Evolve LMS so learners who purchase courses will receive a registration key for each item purchased, whether for a single learner or 100 learners. Automation ensures buyers are setup as Managers in the LMS so they can access to training status and reports for learners who register for the training.

MULTI-PORTAL FOR EXTENDED ENTERPRISES

The Multi-Portal option gives extended enterprises and content providers the ability to create distinct branded portals to their separate entities or customers. With just a few clicks in the Portal Manager new LMS portals can be created that allow for separate and distinct administration. While each new training portal can be branded and administered separately, courses can be shared from the master portal to any other portal.

USER COMMUNICATION

Multiple customizable, event driven email messages triggered by key events including:

- ▶ New user
- ▶ Course registration
- ▶ Course completion reminder
- ▶ Course status change
- ▶ Course completion
- ▶ ILT event registration and more.

User messages, announcements and discussion groups can also be used to facilitate communication with learners.

TRAINING PORTAL

- ▶ Branded training portal including custom color themes and logo.
- ▶ Create additional customer pages.
- ▶ Learners can print certificates of completion any time.
- ▶ Automated and self-registration into courses, course groups and curricula.
- ▶ Online exams for SCORM, web and document-based courses.
- ▶ Automatically marks courses complete upon completion of assessment.
- ▶ Test-builder assessment module for web and document-based courses.
- ▶ Update grades and reset learner status.

Evolving Solutions for Learning!

Easy integration with your HRIS to automatically import users into the Evolve LMS.

OFF-THE-SHELF AUTHORIZING TOOLS

Sometimes there are not off-the-shelf courses for your specific training needs, such as for your own manufacturing processes and products. The Evolve LMS gives you the flexibility to use any SCORM compliant authoring tool such as Storyline®, iSpring®, Captivate® to create your own content and deliver them to your staff or partners.

CORE LMS FUNCTIONALITY AND EXCEPTIONAL SUPPORT TO BENEFIT YOUR TRAINING PROGRAMS.

LEARNING ADMINISTRATION

- ▶ Launch and track SCORM content and document-based courses.
- ▶ Manage and track instructor-led training, workshops and seminars.
- ▶ Create Learning Paths by learner or group profiles and include classroom and online training courses.
- ▶ Ability for Instructor to track learner attendance as well as score exams.
- ▶ Automatically tracks eLearning course scores and completion.
- ▶ Deliver custom training from any third party SCORM compliant authoring tool.
- ▶ Manager access to training enrollment, performance and progress about employees.
- ▶ Track and report on external training events.

REPORTING

- ▶ Dynamic Reporting for custom report creation with advanced sorting and filtering to pinpoint training.
- ▶ Default standalone reports to determine training completion status and progress.
- ▶ Field chooser to easily add, delete, arrange, sort and group reporting data elements.
- ▶ Export reports in PDF, Microsoft Excel, .rtf and .csv formats.
- ▶ Automatically email reports in MS Excel, .csv or .pdf formats to designated recipients on scheduled frequency.
- ▶ Automatically FTP course results information to 3rd party HRIS.

RULES-BASED COURSE ASSIGNMENT

- ▶ Create individual course, course group and curricula automated assignments.
- ▶ Automated assignment of courses based on job title, location, department or other customer defined criteria.
- ▶ Automatic re-registration into training based on a set date or days from completion.

USER MANAGEMENT

- ▶ Add users individually through interface.
- ▶ User self-registration
- ▶ Bulk registration and update of users via CSV spreadsheet for initial registration and subsequent update.
- ▶ Automated bulk import of users and user updates via FTP or web services with HRIS.
- ▶ Single sign-on with active directory.
- ▶ 20 user-defined fields to use for course assignments.
- ▶ Hierarchical departmental structure for regions, divisions, and departments.
- ▶ Standard and custom defined user roles (manager, eLearning admin, instructor)
